

Digital Biothesiometer VIBROMETER®

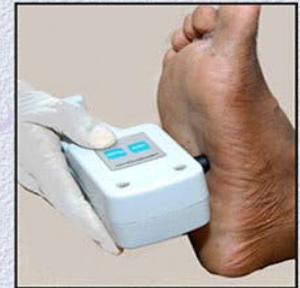

Intended Use:

Vibration Perception Threshold (VPT) has been shown to be strongly associated with foot ulceration. VPT determination by using a Digital Biothesiometer has been used to identify peripheral sensory neuropathy and subjects at risk of foot. Digital Biothesiometer helps us quantitate the threshold and monitor progressive changes or trends on following up testing.

Early detection helps better prevention. Prevention is better than no cure. 50% of all non-traumatic amputations occur in diabetes who is a high-risk group.

Features:

- ◆ Full solid-state design with PC connection
- ◆ Easy tool to quantify neuropathy
- ◆ Digital 0 to 50 Volts indicator
- ◆ Controls on the Probe
- ◆ Probe Disconnect & Over Volt alarm
- ◆ Computer connectivity with USB and Bluetooth
- ◆ Automatic port connectivity of USB or Bluetooth (Plug & Play)
- ◆ First Indian model with Software
- ◆ 2 different formats for testing VPT & MF in the foot
- ◆ Reporting for testing VPT & MF in hands
- ◆ Reporting for testing VPT & MF in Penis for Impotence study
- ◆ User can create own custom testing protocol
- ◆ Hospital Header and logo facility for letter head
- ◆ Connects to any Windows 7,8,10 operated computer
- ◆ Direct Printing, PDF & Email
- ◆ Dicam image compatibility provision (option)
- ◆ Export of Data in excel format, multiple options
- ◆ Data backup & Restore
- ◆ Products tested by International accredited test lab for safety
- ◆ Weighs less than 3 Kg
- ◆ Largest exported product from India
- ◆ 230V, AC, 50Hz Mains operation (110V, VC, 60Hz option)
- ◆ Android mobile application (option)
